HISTORY'S GREATEST INNOVATIONS YOUR STUDENTS MUST KNOW

What is the most essential part of our lives that powers your classrooms' smartboards and lights?

It's electricity, but do you know who is the Father of Electricity?

Meet: Michael Faraday (1821)

His work laid the groundwork for the practical applications of electricity that we see today. It's through Faraday's genius that we understand phenomena such as electromagnetic induction, diamagnetism, and electrolysis.

The man behind every switch you flip – Your students need to know this!

STRONG MINDS, STRONG MENTORS - TEACHER WELLNESS TIPS

Give your mind a boost!

Burnout is the most common issue among the current working class, especially teachers. Let's see how you can deal with it.

Recognizing Signs of Burnout

Burnout leads to exhaustion, reduced accomplishment, and depersonalization.

How Teachers Can Combat Burnout:

1. **Acknowledge and Assess:**
Reflect to identify stressors.
2. **Seek Support:**
Connect with colleagues and friends.
3. **Prioritize Self-Care:**
Make time for exercise and hobbies.
4. **Set Realistic Goals:**
Break tasks into manageable steps.
5. **Practice Mindfulness:**
Use brief mindfulness exercises.

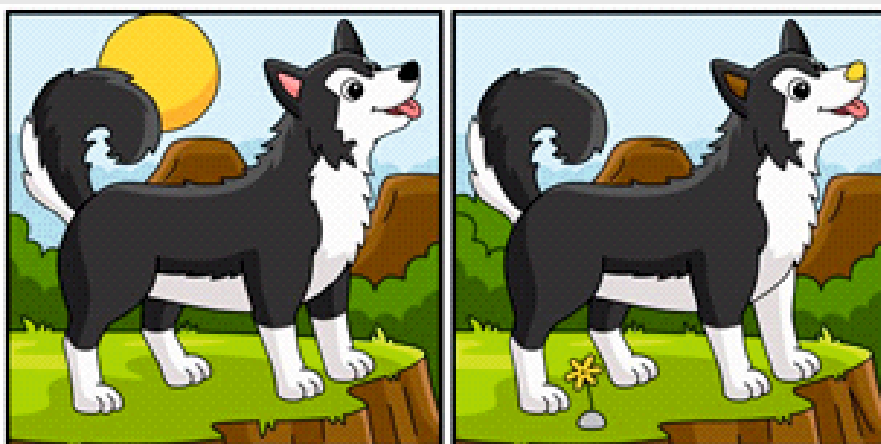

Teachers! Your mental health matters! So, don't forget to take a break here and there.

How do chemical reactions help in baking a cake?

- When you mix flour, sugar, eggs, and baking powder, you're creating a chemical reaction. Baking powder releases carbon dioxide when heated, causing the cake to rise.
- The Maillard reaction between sugars and proteins gives baked goods their brown colour and flavour.

Understanding these reactions explains why specific ingredients are needed and why baking requires precise measurements.

OLYMPIAD PREPARATION STRATEGIES FOR TEACHERS

What does it take for teachers to nurture the right habits for future achievers in the early schooling stage?

1. Spark Curiosity - Turn Olympiad prep into exciting challenges that boost critical thinking.
2. Set Bite-Sized Goals - Break topics into manageable sections for steady progress.
3. Encourage Teamwork - Use group activities to make learning fun and collaborative.
4. Make Practice Fun - Turn practice tests into playful competitions to ease stress.

MYTH VS FACT

Become the Myth Buster of Your Students!

Have you ever heard that we only use 10% of our brains?

Many people think this is true, but it is far from the truth. Brain imaging studies have shown that we engage almost all parts of our brain, even when we're resting.

How do you think this fact could impact the way we encourage our students to engage in learning?

DO YOU KNOW

Ketchup was once sold as medicine:

In the **1830s**, some doctors even promoted tomato ketchup as a cure for various ailments, including diarrhoea and indigestion.

ASTRONOMY FACT

Fearless Winds of Planet Neptune:

The winds on Neptune are the fastest in the solar system, reaching speeds of up to **1,500 mph**.

Let's get started!

Step 1: Take a small square piece of paper and fold it in half from corner to corner. Now, you have two triangles!

Step 2: Take the top triangle and fold it in half again. Then, fold the top corner down toward the bottom edge to make a little pocket.

Step 3: Fold the left corner of your triangle toward the top corner.

Step 4: Now, do the same with the right corner. You're almost there!

Step 5: Next, fold your whole paper in half and tuck it into the little pocket you made in Step 2. This makes your origami corner bookmark!

Step 6: You're going to add the fun part now—fruit! Print out your fruit slice template and trace the shapes onto your colourful paper.

Step 7: Cut out the fruit pieces. For example, for a watermelon slice, you'll need green for the outside, pink for the inside, and black for the seeds. Stick all the pieces on your bookmark to make it look like a yummy fruit slice!

Now, your fruit slice bookmarks are ready to help keep your books neat and remind you of summer!
