SOF FORTNIGHTLY UPDATES

1. **SOF Webinar Series – Empowering Educators for Olympiad Success**
   Through our interactions with educators, we understand that Olympiad preparation requires more than practice - it needs the right strategies, guidance, and approach to help students improve problem-solving, accuracy, time management, and confidence.
   With this aim, we conducted Session 7 of the SOF Webinar Series, providing teachers and academic coordinators with practical insights and strategies. The session also featured a live Q&A segment, addressing educators' queries and helping them gain clarity on key aspects of Olympiad preparation.

Missed the session? Revisit the webinar and watch it here. Click here

Interested in joining upcoming webinars? Receive webinar updates, share your suggestions and register for future sessions by filling out this form Click here

SOF OLYMPIAD EXAMS SCHEDULE 2026-27

For More Details Visit: www.sofworld.org

SCIENCE OLYMPIAD FOUNDATION

IGKO – SOF INTERNATIONAL GENERAL KNOWLEDGE OLYMPIAD
CLASS 1-10
Date 1: 22 September
Date 2: 06 October
Date 3: 03 November

IEO – SOF INTERNATIONAL ENGLISH OLYMPIAD
CLASS 1-12
Date 1: 30 September
Date 2: 27 October
Date 3: 17 November

ISO – SOF INTERNATIONAL SCIENCE OLYMPIAD
CLASS 1-12
Date 1: 30 October
Date 2: 19 November
Date 3: 03 December

IMO – SOF INTERNATIONAL MATHEMATICS OLYMPIAD
CLASS 1-12
Date 1: 23 October
Date 2: 26 November
Date 3: 10 December

ICSO – SOF INTERNATIONAL COMPUTER SCIENCE OLYMPIAD
CLASS 1-10
Date 1: 24 September
Date 2: 17 December

ISSO – SOF INTERNATIONAL SOCIAL STUDIES OLYMPIAD
CLASS 3-10
Date 1: 30 November
Date 2: 19 January

IHO – SOF INTERNATIONAL HINDI OLYMPIAD
CLASS 3-10
Date 1: 23 November
Date 2: 22 January

ICO – SOF INTERNATIONAL COMMERCE OLYMPIAD
CLASS 11-12
Date 1: 30 November
Date 2: 19 January

FROM EDUCATORS' DESK - TEACHERS' TESTIMONIALS

Real voices. Real classrooms. Real impact

Discover how educators like you are transforming teaching, one story at a time.

📸 IN THE SOF SOCIAL MEDIA SPOTLIGHT

🏫 SCHOOL COLLABORATION

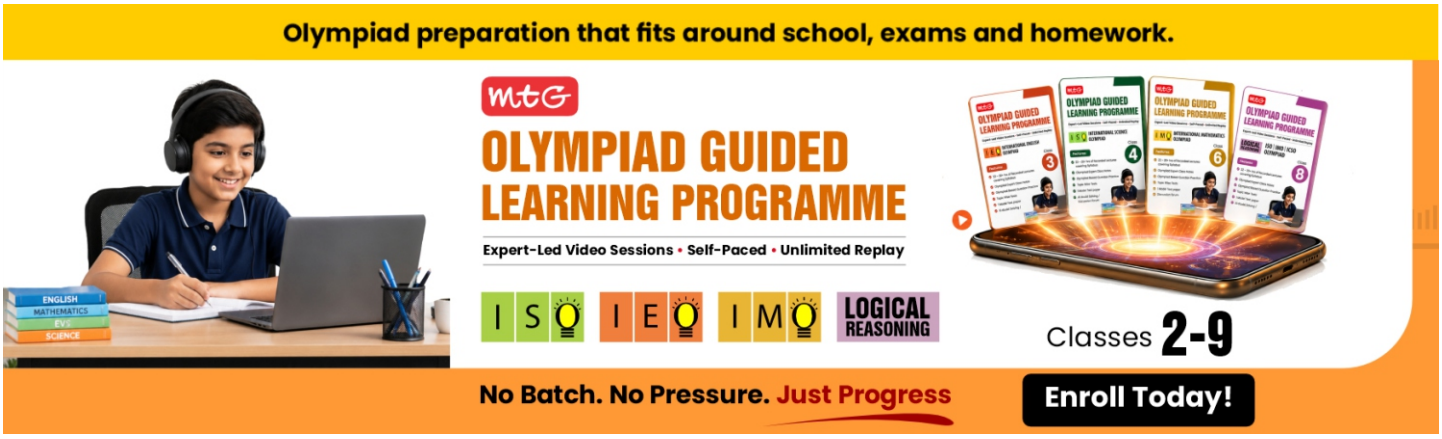

Schools can **send collaboration requests** by sharing SOF Olympiad–related videos on Instagram. After **verification**, selected collaborations will be accepted and the videos will be **featured** on our official platforms.

Here is our official social media profile link

🎓 STUDENT COLLABORATION

Students can collaborate with us by posting short Instagram videos on topics like **SOF medal wins (National/International), learning journeys, preparation tips**, or **Olympiad experiences**. All entries will be verified first, and approved collaborations will be showcased on SOF's official handles.

Here is our official social media profile link

Meera Iyer

SOF Achievement: **Gold Medalist**

Current Role: **Research Associate – Indian Council of Medical Research**

> "SOF Olympiads encouraged me to think beyond textbooks and develop a deeper curiosity for science. The habit of questioning, analysing, and exploring concepts has been valuable throughout my academic and professional journey."

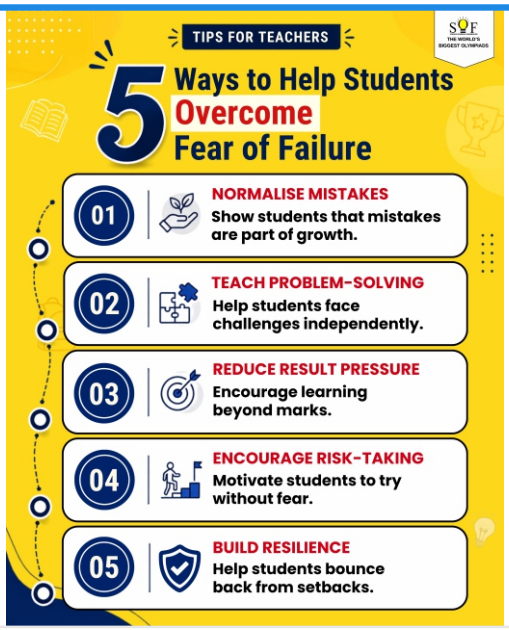

🎨 SCIENCE IS COOLER THAN YOU THINK!

Spider Silk Is Stronger Than It Looks!

Spider silk may look delicate, but it is one of nature's strongest materials. It is lightweight, flexible, and has an impressive strength-to-weight ratio, which allows spiders to build webs that can withstand strong forces.

Scientists study spider silk to develop advanced materials that could be used in fields like medicine, technology, and engineering.

TEACHER TECH TIP

Improve Writing with QuillBot AI

QuillBot AI helps teachers refine content, simplify complex text, summarise information, and create well-structured learning resources more efficiently.

Benefits for Teachers:

- **Improve Writing** – Enhance clarity and quality of content.
- **Summarise Quickly** – Convert lengthy articles into key points.
- **Paraphrase Easily** – Rewrite content while keeping the original meaning.
- **Save Time** – Prepare teaching materials faster.

TEXTBOOK MEETS REAL WORLD

How does DNA help solve crimes?
Biology + Forensics:

DNA is the unique genetic code present in every cell of our body. It carries information that makes each person different. Because DNA patterns are unique, forensic scientists can collect DNA samples from a crime scene - such as hair, blood or skin cells - and compare them with available samples to help identify individuals.

DNA analysis is also used in identifying missing people, solving old cases and confirming biological relationships. It has become one of the most powerful tools in modern forensic science.

MYTH V/S FACT

MYTH

Brown Eggs Are Healthier Than White Eggs

FACT

The colour of an egg's shell depends mainly on the breed of the hen, not its nutritional value. Both brown and white eggs provide similar nutrients like protein, vitamins, and minerals.

WHAT WOULD HAPPEN IF

What If All of Earth's Plastic Suddenly Disappeared?
Plastic has become a part of our daily lives — from medical equipment and electronics to packaging and transportation. If all plastic suddenly vanished, many essential systems would be affected, including healthcare, technology, and everyday products.

However, its disappearance would also reduce pollution, protect marine life, and help ecosystems recover from plastic waste. This shows us that the real solution is not removing all plastic overnight, but using it responsibly and reducing unnecessary plastic consumption.

VOCABULARY BOOST

What Does "Nuance" Mean?

Meaning: A small but important difference, detail, or subtle quality that can change the meaning or understanding of something.

Example: "A good writer understands the nuances of human emotions."

"The teacher explained the nuances of the poem, helping students understand its deeper meaning."

"Understanding the nuances of different cultures helps us communicate better with others."

DO YOU KNOW?

Planaria Can Regrow Their Lost Body Parts?
Planaria, a type of flatworm, have an amazing ability to regenerate. If a planarian is cut into pieces, each piece can develop into a complete new organism under suitable conditions. This happens because of special cells called stem cells that help rebuild missing body parts.

In science, this ability is called regeneration — the process of replacing or regrowing damaged or lost body parts.

ASTRONOMY FACT

The First Human Who Jumped From the Edge of Space!
In 2012, Felix Baumgartner made history by jumping from a helium balloon nearly 39 kilometres above Earth's surface during the Red Bull Stratos mission. Wearing a specially designed pressure suit, he descended through the atmosphere and safely landed using a parachute.
During his freefall, he became the first person to break the sound barrier without an aircraft, reaching speeds of over 1,300 km/h. His mission helped scientists study high-altitude survival, pressure changes, and future space exploration technologies.
