- 8 Olympiads

1st Floor, Plot no. 99, Sector - 44, Gurugram (Haryana) India. Pin- 122003

SOF FORTNIGHTLY UPDATES

1. SOF Webinar Series - Empowering Educators for Olympiad Success

With the Olympiad exams approaching, the right preparation strategy can make a significant difference in helping students perform with confidence.

Keeping this in mind, the SOF Webinar Series brings educators valuable insights, practical strategies, and expert guidance to help teachers prepare their students for success. These sessions focus on effective preparation techniques, improving problem-solving skills, enhancing accuracy, managing time efficiently, and building students' confidence before the exams.

Through these webinars, teachers and academic coordinators can access actionable tips and approaches to make their students exam-ready and better prepared for the SOF Olympiad challenge.

Explore the complete SOF Webinar Series and watch the sessions here: Click here

And, if you need step-by-step guidance on SOF Olympiad Form Filling, explore our complete guide playlist here: Click here

SOF OLYMPIAD EXAMS SCHEDULE 2026-27

For More Details Visit: www.sofworld.org

IGKO – SOF INTERNATIONAL GENERAL KNOWLEDGE OLYMPIAD
CLASS 1-10
Date 1: 22 September
Date 2: 06 October
Date 3: 03 November

IEO – SOF INTERNATIONAL ENGLISH OLYMPIAD
CLASS 1-12
Date 1: 30 September
Date 2: 27 October
Date 3: 17 November

ISO – SOF INTERNATIONAL SCIENCE OLYMPIAD
CLASS 1-12
Date 1: 30 October
Date 2: 19 November
Date 3: 03 December

IMO – SOF INTERNATIONAL MATHEMATICS OLYMPIAD
CLASS 1-12
Date 1: 23 October
Date 2: 26 November
Date 3: 10 December

ICSO – SOF INTERNATIONAL COMPUTER SCIENCE OLYMPIAD
CLASS 1-10
Date 1: 24 September
Date 2: 17 December

ISSO – SOF INTERNATIONAL SOCIAL STUDIES OLYMPIAD
CLASS 3-10
Date 1: 30 November
Date 2: 19 January

IHO – SOF INTERNATIONAL HINDI OLYMPIAD
CLASS 3-10
Date 1: 23 November
Date 2: 22 January

ICO – SOF INTERNATIONAL COMMERCE OLYMPIAD
CLASS 11-12
Date 1: 30 November
Date 2: 19 January

FROM EDUCATORS' DESK - TEACHERS' TESTIMONIALS

Real voices. Real classrooms. Real impact
Discover how educators like you are transforming teaching, one story at a time.

📸 IN THE SOF SOCIAL MEDIA SPOTLIGHT

🏫 SCHOOL COLLABORATION

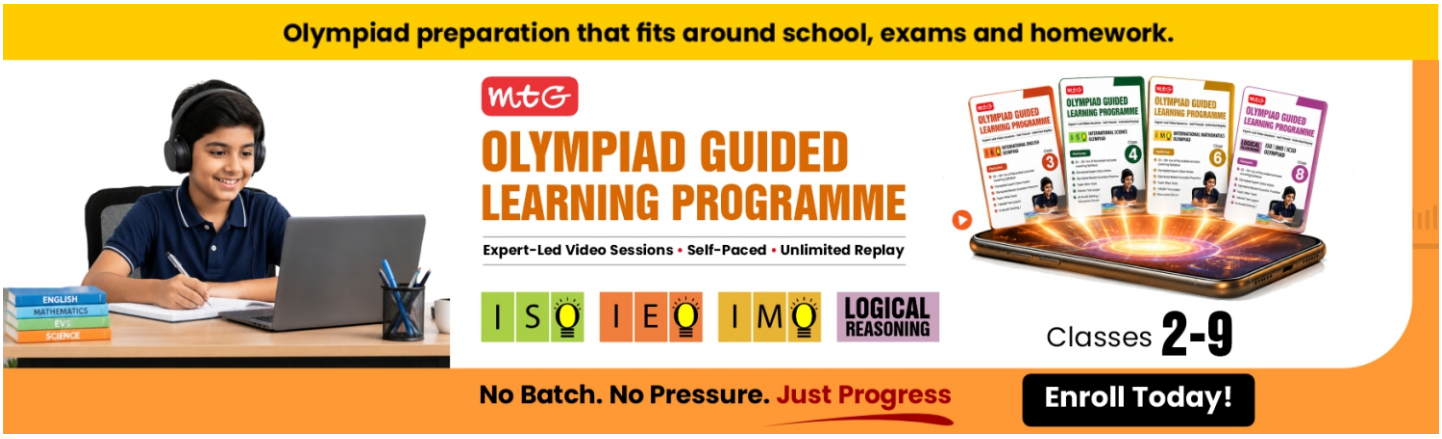

Schools can **send collaboration requests** by sharing SOF Olympiad–related videos on Instagram. After **verification**, selected collaborations will be accepted and the videos will be **featured** on our official platforms.

Here is our official social media profile link

🎓 STUDENT COLLABORATION

Students can collaborate with us by posting short Instagram videos on topics like **SOF medal wins (National/International), learning journeys, preparation tips**, or **Olympiad experiences**. All entries will be verified first, and approved collaborations will be showcased on SOF's official handles.

Here is our official social media profile link

Karan Mehta

SOF Achievement: **Gold Medalist**

Current Role: **Artificial Intelligence Engineer - Google**

> "SOF Olympiads helped me develop a structured approach to problem-solving and analytical thinking. These skills became the foundation for my passion for coding, artificial intelligence, and creating technology-driven solutions for real-world challenges."

🎨 SCIENCE IS COOLER THAN YOU THINK!

Male Seahorses Can Give Birth!

Seahorses have one of the most fascinating parenting systems in the animal world. During reproduction, the female seahorse transfers her eggs into a special pouch on the male's front-facing tail. The male then carries these eggs safely inside the pouch for around 9-45 days until tiny baby seahorses are born.

This unique process is a wonderful example of how nature has evolved different ways to support the survival of species.

WHAT'S HAPPENING AROUND THE WORLD?

The World Map Is Changing - Here's Why

Take a look at a world map. Does Greenland really look almost as big as Africa? Is Europe actually that huge?

Well... not exactly!

For years, most of us have grown up seeing the Mercator map, a map created centuries ago to help sailors navigate the oceans. But there's a catch - it stretches areas closer to the poles, making places like Greenland and Antarctica appear much larger than they really are.

That's where the Equal Earth projection comes in. This newer map design gives a more accurate picture of the size of continents, helping us see countries closer to their true proportions.

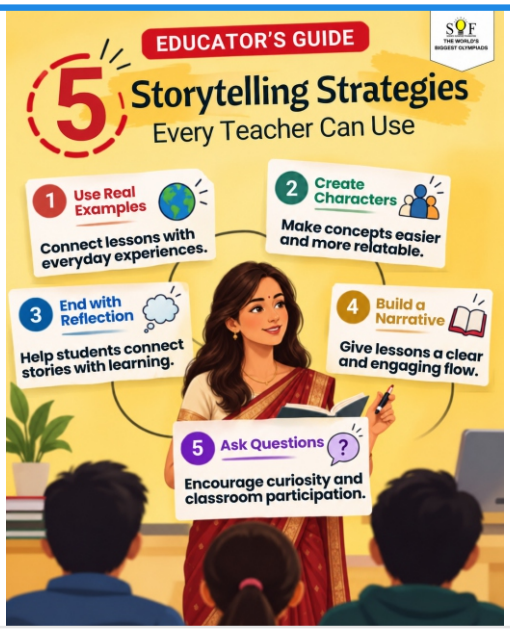

TEXTBOOK MEETS REAL WORLD

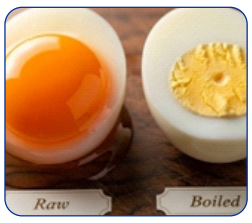

How Do Airbags Save Lives?

Airbags are a real-life application of Newton's laws of motion. During a sudden collision, a vehicle stops quickly, but the passengers' bodies continue moving forward due to inertia. Airbags inflate instantly to provide a soft cushion, increasing the time taken to slow down and reducing the force experienced by the body.

This simple physics principle helps reduce serious injuries and makes vehicles safer for millions of people around the world.

MYTH V/S FACT

MYTH

A Raw Egg Is More Nutritious Than a Cooked Egg

FACT

Cooking eggs makes some nutrients easier for the body to absorb and also reduces the risk of harmful bacteria.

WHAT WOULD HAPPEN IF

What Would Happen If It Never Rained Again?
Rain plays a vital role in maintaining life on Earth. Without rainfall, rivers, lakes, and groundwater levels would gradually decrease, affecting drinking water supplies, agriculture, and ecosystems. Plants would struggle to grow, which would impact animals and humans who depend on them for food.

The water cycle keeps our planet balanced - and every drop of rain helps sustain life.

VOCABULARY BOOST

What Does "Conundrum" Mean?

Meaning: A difficult problem or mystery that requires thinking.

Example: "The disappearance of ancient civilizations remains a fascinating **conundrum** for historians and scientists."

"How the universe began is one of the biggest **conundrums** that researchers are still trying to solve."

"Finding a solution to climate change is a global **conundrum** that requires innovation and teamwork."

DO YOU KNOW?

Dolphins Have Names for Each Other!
Dolphins use unique whistle patterns called "signature whistles" to identify themselves and communicate with one another. Other dolphins can recognise and respond to these whistles, almost like calling each other by name.

The ocean has its own language - and dolphins are amazing communicators!

ASTRONOMY FACT

Astronauts Cannot Burp Normally in Space!
On Earth, gravity separates food and gas inside our stomach. But in space, there is no gravity to pull heavier food down, so gases and liquids stay mixed together. If astronauts try to burp, some liquid or food particles can come up along with the gas — a very unpleasant experience!
